Design · Expertise · Service

We transform hospitality spaces with beautifully designed, functional fabrics and soft furnishings, adding quality and creativity to every space.

The Skopos Story

*Adding quality and
creativity to every space*

The Skopos journey started in the early 70s, born out of a collaboration between two talented art school students. With hand-printed designs, we went on a journey producing flame retardant fabrics for commercial interiors in the UK. The business steadily grew into a venture which saw FR fabrics and soft-furnishings brought into contract environments across the globe. With expertise in textile design, print and manufacturing, Skopos became an integral part of flagship projects across hospitality, cruise, education and other commercial settings including healthcare.

Beautiful fabrics
motivate us. We believe
that every space can
be an inspiring one.

Karen Mowat

Senior Designer at Skopos Fabrics Ltd

Designed by Experts

Tactile textures, punchy prints, original designs; Skopos' fabrics breathe life and depth into any space. Our design team are excited by colour and form. We absorb creativity and work in partnership with contract interior designers and specifiers to bring exciting ideas to life.

Design

Anything is possible.

Set your imagination free. Our designers work with customers to spark new ideas. Unique prints, creative weaves and stand-out colours can be developed to match your brand story. Our Bespoke design service opens up the possibilities.

STUDIO

Expertise

We are a registered ISO company.

Our strict processes ensure ensure our customers receive best quality products and services.

We test all of our products prior to launch to ensure they conform to British and European standards for fire retardancy and meet the high demands set for contract interiors.

We are committed to a programme of due diligence for our British Standards and test continually throughout the year to ensure our certification is up to date.

Flame Retardant

Confidence in specialist products

Our tests depend on the nature of the fabrics involved but include:

Bedding and Drape Tests:

- BS5867 parts 1 and 2
- USA NFPA 701
- M1, Classe Uno and B1 (dependent on collection)
- BS7175 (Bedding)

Upholstery Tests:

- EN1021—1 and 2
- BS7176 Medium Hazard
- BS5852 (Crib 5)
- Martindale Abrasion
- USA NFPA 260

We rate many of our fabrics for their acoustic properties and provide Light Reflective Values for our accents or plains (LRVs). This knowledge helps our specifiers create spaces that are fit for purpose.

Carbon Neutrality

Skopos Fabrics are proud to have been certified as a Carbon Neutral Organisation, in accordance with PAS 2060.

Looking after our environment now and for the future

Textile manufacturing has evolved.

Skopos is committed to a launch program which brings sustainable fabrics to the top of the list: Rethink, Renew, Re-use. Innovations in recycled fabrics and yarns mean products which offer a real 'green' alternative still deliver on safety and meet all requirements for flame retardancy. Skopos fabrics are also measured against an environmental list of credentials, ensuring recycled fabrics are Oeko-tex and GRS Compliant and products supplied by us do not contain harmful chemicals or toxins which are polluting to our environment.

- ☑ OEKO-TEX 100 compliant
- ☑ REACH compliant
- ☑ GRS certified yarns
- ☑ Free of heavy metals
- ☑ Free of PFAS
- ☑ Halogen free
- ☑ Prop 65 compliant
- ☑ AB2998 compliant
- ☑ Red list compliant
- ☑ Phthalate free

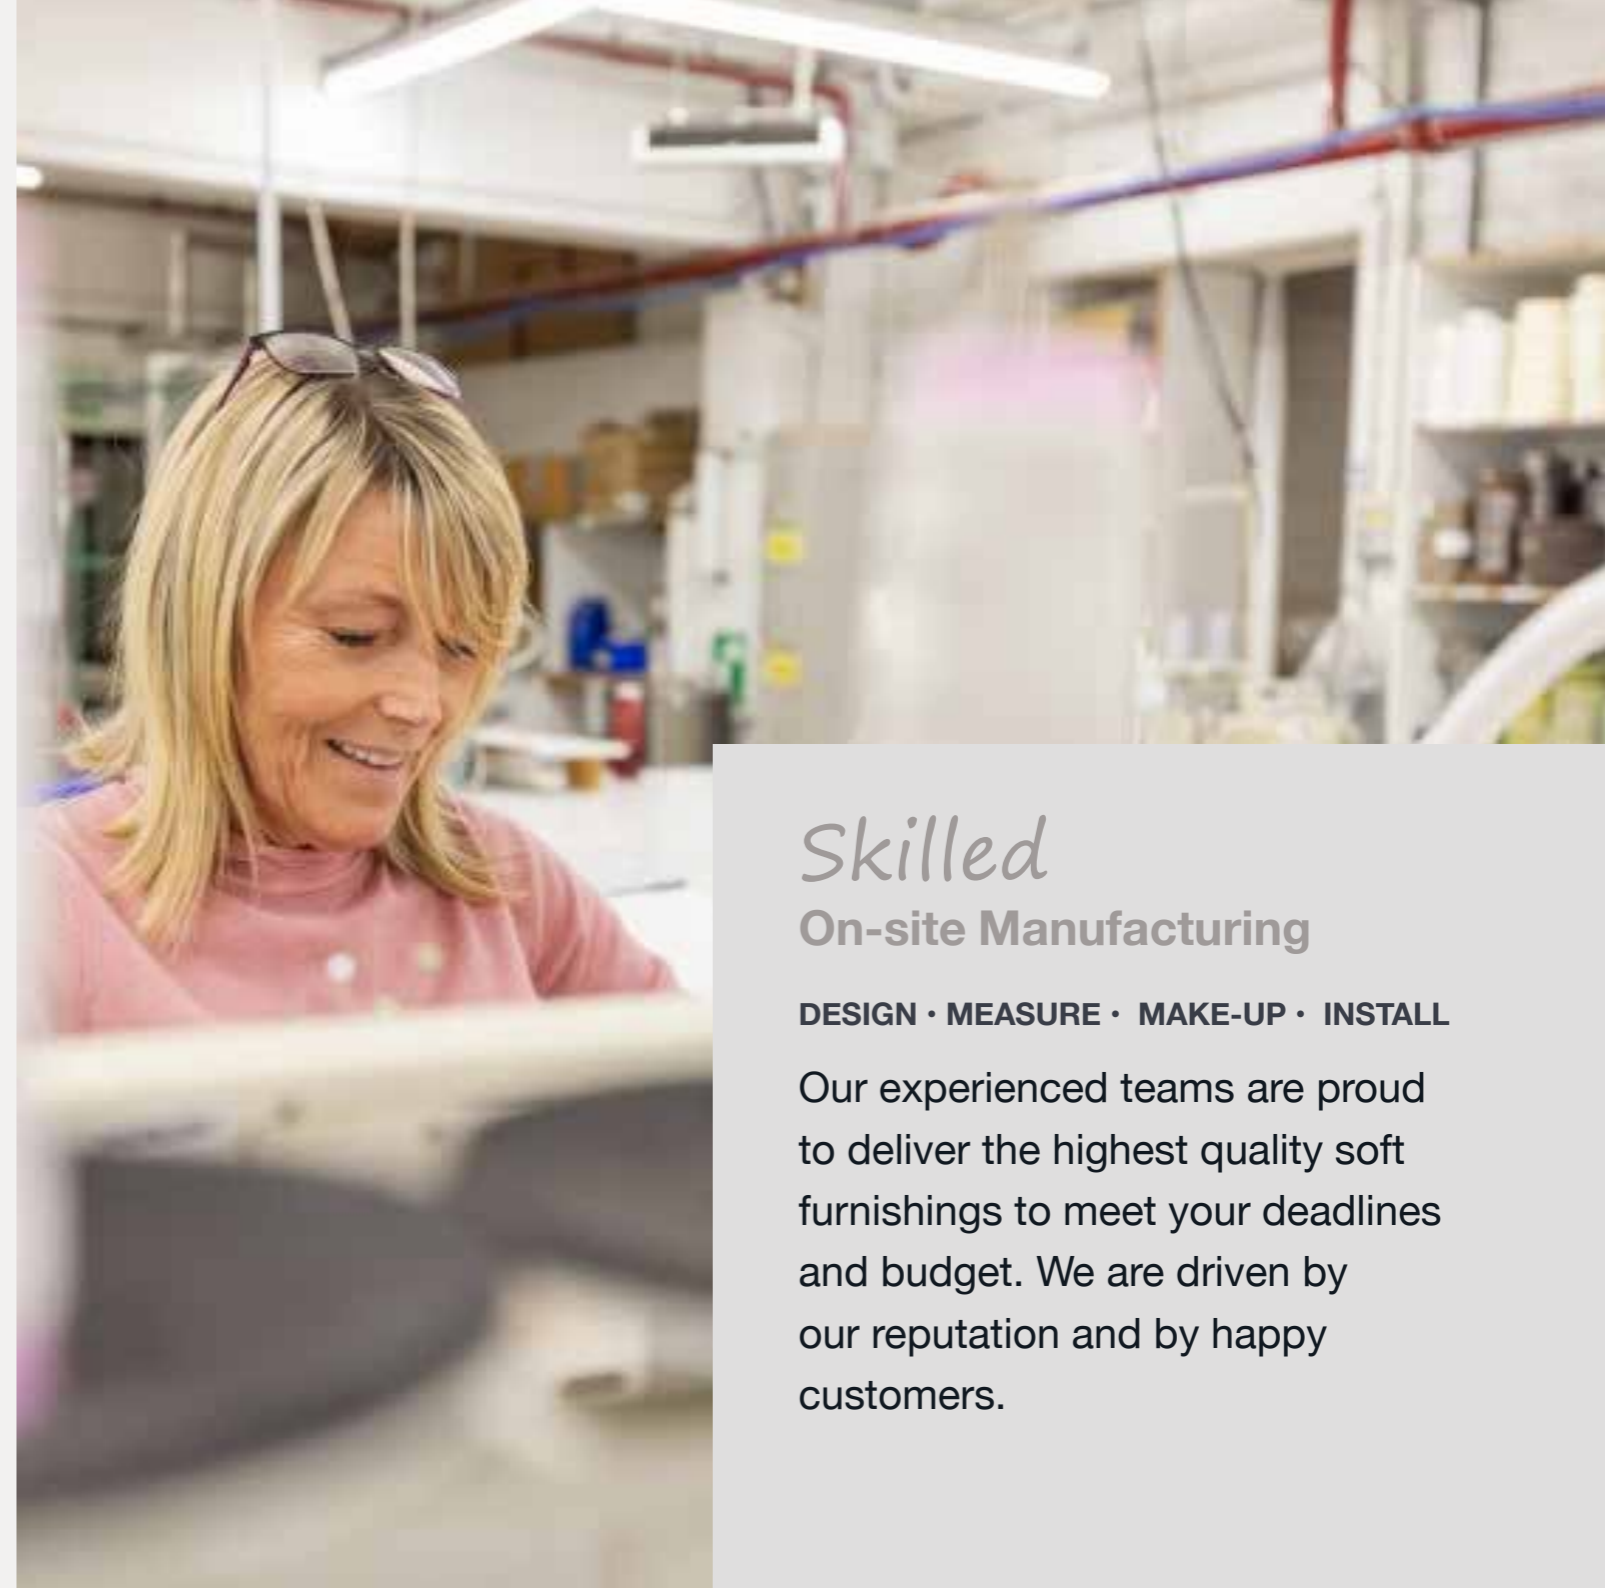

Service

We pride ourselves on providing outstanding service

Our full service option means we will be with you every step of the way. Our skilled and experienced team are on-hand to help with planning and estimating any size project, large or small.

The Skopos team produce approximately 25,000 made-up items each year, including bed-throws, cushions and pairs of curtains, all manufactured by a highly-skilled team of pattern makers, cutters and machinists; items that are delivered and installed into different contract environments. With our talented on-site team, we know that our quality contract soft furnishings will transform your space.

Skilled On-site Manufacturing

DESIGN • MEASURE • MAKE-UP • INSTALL

Our experienced teams are proud to deliver the highest quality soft furnishings to meet your deadlines and budget. We are driven by our reputation and by happy customers.
